Dashboard » My Manufacturing Sites » Site Summary

The following impact events have been assessed as critical by one or more of your customers. Each customer has provided a impact workbook requesting data on how this event may impact parts you supply to the company. Instructions specific to each request can be found on the Instructions worksheet of the downloaded workbook.

With each request you will see an update frequency. This will indicated on which day or days of the week that you need to update the data. After the initial update, you can either upload an updated copy of the original worksheet or download the last submitted copy, update it, and re-upload it.
